Allowable Subject Matter

Claims 22-43 and 47-57 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding claim 22, the prior art of record does not teach or suggest the invention of a light emitting device having a primary light source and phosphor material having nanoparticles with group IV semiconductor which absorbs at least a portion of the light emitted from the primary light source, wherein the light emitted from the phosphor or the combination with the primary light comprises white light, along with other claimed limitations. Claims 23-43 and 52-56 are allowed due to claim dependency.

Regarding claim 47, the prior art of record does not teach or suggest the invention of a phosphor material having domains formed on an organic film, each domain having luminescent semiconductor nanoparticles with monodisperse size distribution, along with other claimed limitations. Claims 48-51 and 57 are allowed due to claim dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
